SCHOOL'S CONTRACT

Course Description: The Virginia Driver Education Program consists of two phases, as required by the Virginia Department of Motor Vehicles. The in-car phase for teenage students consists of a minimum of seven (7) periods of actual driving and seven (7) periods of observation. Normally, two periods of instruction are given during each session. Each instructional period is 50 minutes.

Drivers Education Program: Students who are 17 years of age or younger are required to complete 36 hours of a state-approved driver education program before receiving a driver's license. Students who are 18 years of age or older may hold a learner's permit for 60 days instead of completing a driver training course. However, the permit can be held for fewer than 60 days if the student completes the driver education program. This program consists of 36 classroom periods (50 minutes each) and 14 in-car periods (50 minutes each), including seven (7) periods of driving and seven (7) periods of observation.
